MEMORANDUM FOR : Executive Officer, DDA

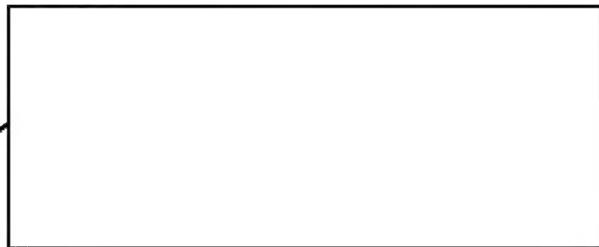

STATINTL FROM : [redacted]
Assistant General CounselSTATINTL SUBJECT : [redacted] Monitoring or Recording of Telephone
Conversations

STAT
1. You have asked whether the definition of "electronic surveillance" in section 4-203 of the recently-issued E. O. 12036, which excludes electronic acquisition of nonpublic communications where one party has consented, makes it unnecessary to reissue [redacted] which prohibits monitoring or recording telephone conversations without the express consent of all parties or approval of the DCI or DDCI.

STATINTL
STATINTL 2. [redacted] represents a policy, not a legal, issue. The definition of "electronic surveillance" in section 5(a)(3) of E. O. 11905, which was in effect when [redacted] was issued by DDCI Knoche, was substantially the same as that in section 4-203 in this regard. The Agency's adoption of this policy followed the announcement of similar policies at the Departments of State and Defense. I have been advised by representatives at State and Defense that these organizations continue to maintain this policy which has been announced in a more or less permanent fashion at each of those Departments.

3. I would suggest that the determination as to whether this policy should be renewed and continued is a proper matter for presentation to, and determination by, the current DDCI, Mr. Carlucci. At the same time, it could be more clear that this policy applies to calls between staff employees and other persons employed in Agency facilities in the ordinary course of Agency business, and between such persons and persons from outside the Agency. Operational monitoring or recording is, of course, governed by the terms of E. O. 12036 and applicable Attorney General procedures.
